

Points to be remembered while entering details for guide preferences pertaining to the 8th semester Major Project.

- 1) The allotment is based upon the CGPA of the student till 6th semester provided by mentor.
- 2) Student with higher CGPA till 6th semester will be given the first priority in allotment to the guide of his/her choice in his/her choice of domain.
- 3) As the number of preference are limited to 4, if in case the student is not allotted to any faculty in 1st choice of domain, then the preference for 2nd choice of the domain shall be considered.
- 4) In case, if the student remains un-allotted to any guide of his preference in both the chosen domains, then the allotment would be done by department.
- 5) Students failing in giving preferences would be allotted to the guide by department and thereafter any excuses from the student will remain unentertained.
- 6) Each student shall fill his/her personal contact details (to be verified by mentors later on) as asked in the google sheet. Failing to this means that the allotment of guide to that particular student will be skipped and the next student will be given chance.
- 7) **If in case it is observed that by any means the details filled by any student is altered by any other student, then in that case the preferences of the student (altering details) will be considered as null and void. Hence hereby kindly fill your details through your mail id provided by Indus University only.**
- 8) As the guides are chosen based upon your performance, preference and criteria laid by department, the domain of Major Project of students will be as decided by guide only.
- 9) The location of Major Project of the student, either in the university or outside the university, will be totally decided by guide only.
- 10) If in case, guide denies the student from working out of university, student shall abide by the same.
- 11) The domains in which the number of faculties are more than the number of preferences, kindly arrange the order of your preferences based on your CGPA.
- 12) **The domains in which the number of faculties are less than the number of preferences, do not enter the names multiple times.**
- 13) **Choosing same domain twice is not sensible.**
